Forecast for Wednesday 06 Nov 2024

Weather: A cloudy night and morning with the odd spot of light rain but staying mainly dry. A dry afternoon and evening with some good sunny or clear spells developing over northern Snowdonia. Cloudier in the south but any ground above 600m will likely sit in clear conditions above the cloud sheet.

Chance of cloud-free hill tops above 800m: 20% overnight and morning becoming 80% during the afternoon.

Low Cloud and visibility: Extensive cloud above 500m overnight and morning with patches on lower slopes. The cloud will break up in the north during the afternoon, remaining more persistent in the south but clear conditions above the cloud sheet above 600m. Away from cloud, visibility mainly good, but sometimes less than 10 kilometres in any morning rain.

Meteorologist's View
A very mild day with afternoon temperatures reaching 15 or 16C in the valleys. Low cloud will result in damp rocks and difficult navigation conditions during the morning but conditions improving in the afternoon with excellent views to be enjoyed from the tops.

Forecast for Thursday 07 Nov 2024
Weather: Dry with clear spells overnight but cloudier in the south. High pressure will maintain dry weather with variable amounts of cloud shrouding the mid-slopes at times, especially across southern Snowdonia. Summits above 700 or 800m are likely to remain in clear or sunny conditions above the cloud inversion with spectacular views from the tops.

Maximum wind: South or Southeast 15 to 20mph.

Chance of cloud-free hill tops above 800m: Mainly 70% with most summits at this height remaining above the cloud sheet. 30% across the south at first.

Low Cloud and visibility: Mostly good visibility but poor at times with a sheet of cloud between 400 and 700m. Excellent visibility from higher summits sitting above the cloud.

Temperature: **Valleys:** Plus 9C rising to 15C.
At 800m: Plus 7C rising to 12C.
Freezing level: Above summits.
